

Live a better life.

The logo for JetStream POOLS features a stylized white wave graphic above the brand name. 'JetStream' is written in a bold, sans-serif font, and 'POOLS' is written in a smaller, all-caps sans-serif font directly below it.

JetStream
POOLS

A pool that fits your lifestyle, all year round.

A Jetstream is an affordable alternative to a traditional pool. It's better for our environment and better for you. With a Jetstream you'll never need to pay for gym memberships or exercise classes again: exercise in zero impact on your joints, get more of a workout and enjoy all the proven benefits on your body of swimming in warm water.

Made from steel reinforced concrete a Jetstream Pool offers far more quality than 'plastic' alternatives. A Jetstream Pool can be installed in just one day, and will last a lifetime.

It features:

- Seating for 6 persons
- Dimensions (4000 x 2300 x 1200)
- 6 deep tissue massage hydrotherapy jets
- 8 in seat air bubblers for a full body massage experience
- 900mm ribbon waterfall with a control valve and LED lighting
- Premium German designed Badu swim jets provide a mild to Olympic style workout with endless swimming
- LED underwater and waterfall effect lighting
- Low cost heating using air to water heat pump technology
- Hand held remote control for all functions
- Fully tiled internal swim and seat areas
- Stainless steel step access and exercise rails

Dave Bissell, Founder, Jetstream Pools

After 45 years building pools across Australia and America Dave recognised a need for a smarter solution than your average pool. He'd build massive pools for clients whom would only end up using them 2 or 3 months in the year. It didn't make sense to invest so much money into something that would be used so little. He also recognised blocks of land were getting smaller and people had much less space in their backyards. Also the growing demand for an "environmentally sound" solution was growing. In 2008 Dave created his first Jetstream Pool. Made from steel reinforced concrete, he created a mould that would allow him to make a Jetstream Pool and freight it to any location in Australia. If you're looking for a more affordable, smarter solution that you can use all year round, consider a Jetstream Pool.

swim

"You can work out for 20 minutes in the pool versus 60 minutes on the treadmill and get the same cardio benefits"

Fran Wade, Physical Therapist, Health South Aquatic Centre

10 reasons you'll live a better life with a Jetstream Pool

1. It's more affordable. A Jetstream Pool costs between \$17,000 - \$30,000.
2. Cheaper running costs. A Jetstream Pool is approximately 90% cheaper to run than your standard pool.
3. Use it all year round. With such a significant investment doesn't it make sense to buy something you can use even in Winter? A Jetstream Pool offers a heating option so you can enjoy it every day of the year.
4. Live longer (It's true!) Have you ever read about the benefits warm water can have on the human body? Just Google hydrotherapy to find out more.
5. A liquid gym. A Jetstream Pool offers swim jets so you can exercise any time of year. Swim, use an aqua bike or treadmill, the choice is yours. Plus it's better for you. Exercise in water has ZERO IMPACT on your joints.
6. It takes up less space. Perfect for those on small blocks or for people who want more than a pool in their backyard.
7. Less Maintenance. Due to the unique design and size of a Jetstream Pool it takes less work than an ordinary pool to maintain.
8. It's better for our environment. With less water usage, less electricity consumption and less chemicals it's definitely a greener option over your standard pool.
9. No waiting! A Jetstream pool usually takes just one day to install.
10. A bit of pampering in your own backyard. Choose our revolutionary deep tissue massage jets and bubblers and you won't have to pay for another massage again.
